TD Charitable Foundation Supports Busch Wildlife with \$5,000 Donation for Native Tree Planting Initiative

Jupiter, FL June 30, 2023 - Busch Wildlife Sanctuary, a leading nonprofit organization, is thrilled to announce a significant contribution of \$5,000.00 from the TD Charitable Foundation, the charitable arm of TD Bank Group. The donation will support the Native Tree Planting Initiative, an essential program dedicated to preserving and enhancing the natural habitats within the Sanctuary's new location.

The Native Tree Planting Initiative is aimed at restoring and expanding native tree species at the upcoming new Jupiter Farms campus. This effort not only creates a more sustainable environment but also promotes biodiversity, provides habitats for wildlife, improves the overall quality of life for communities, and creates the natural shade that the thousands of visitors love.

"We are immensely grateful to the TD Charitable Foundation for their support of our Native Tree Planting Initiative," said Lisa Wynne, Development Director of Bush Wildlife Sanctuary. "Their generous donation will enable us to make a significant impact in preserving our natural heritage and creating a greener future for generations to come."

Through the program, Busch Wildlife will leverage the funds to acquire and plant a diverse range of native tree species in key areas identified as critical for ecosystem conservation. These efforts will enhance the existing green spaces, restore degraded habitats, and contribute to the overall well-being of local flora and fauna. For information on how you can contribute to this initiative, please visit www.buschwildlife.org/sponsoratree

About Busch Wildlife Sanctuary

Busch Wildlife Sanctuary is a non-profit organization dedicated to the protection and conservation of Florida's wildlife and natural resources. Founded in 1983, the Sanctuary protects and restores native wildlife for the benefit of its unique animals, environment, and people. Our goal is to inspire and educate the community in leading local conservation and wildlife rescue, rehabilitation, and release efforts.
